“A Healthy State of Mind”

#004, 1/1/2016

Welcome to “A Healthy State of Mind”! This is your host, Bo Deaton.

A few years ago I gave concerts in some of the High Schools in the Atlanta area. I told a story about a man who wanted to walk across Niagara Falls on a tight rope pushing a wheelbarrow, with a man in it.

The man practiced in his back yard as his neighbor watched and became his # one supporter. A rope was stretched across the falls. The man turned to his neighbor and said, “Do you believe I can? The neighbor said I believe you can, then the man said you are my man you get in the wheelbarrow!

I related this story about my own life and how God challenged me to get in the wheelbarrow for a life of excitement and joy that I would find nowhere else.

A few days later, a young lady came up to me and said, “You’re the man with the wheelbarrow.” She wanted me to know that in that concert, her life in a mess, she accepted the challenge and climbed into God’s wheelbarrow... And God said “I will be with you always, to the very end of the age.
